MEMORIAL TO WIRELESS HEROES.

Fountain to be dedicated in Battery park, New York city, April 15. Funds were collected from wireless operators inspired by memories of the Titanic's wireless men.

BEACHEY WAVING HIS LAST FAREWELL.

The daredevil flier, Lincoln Beachey, waving goodbye to crowds at Panama-Pacific exposition as he ascended on his recent trip, which cost him his life.

JACK ASTOR, THE TITANIC BABY.

John Jacob Astor, or Jack, was born after his mother, Mrs. Madeleine Force Astor, was saved in the Titanic disaster, where his father lost his life. He is now two and a half years old.

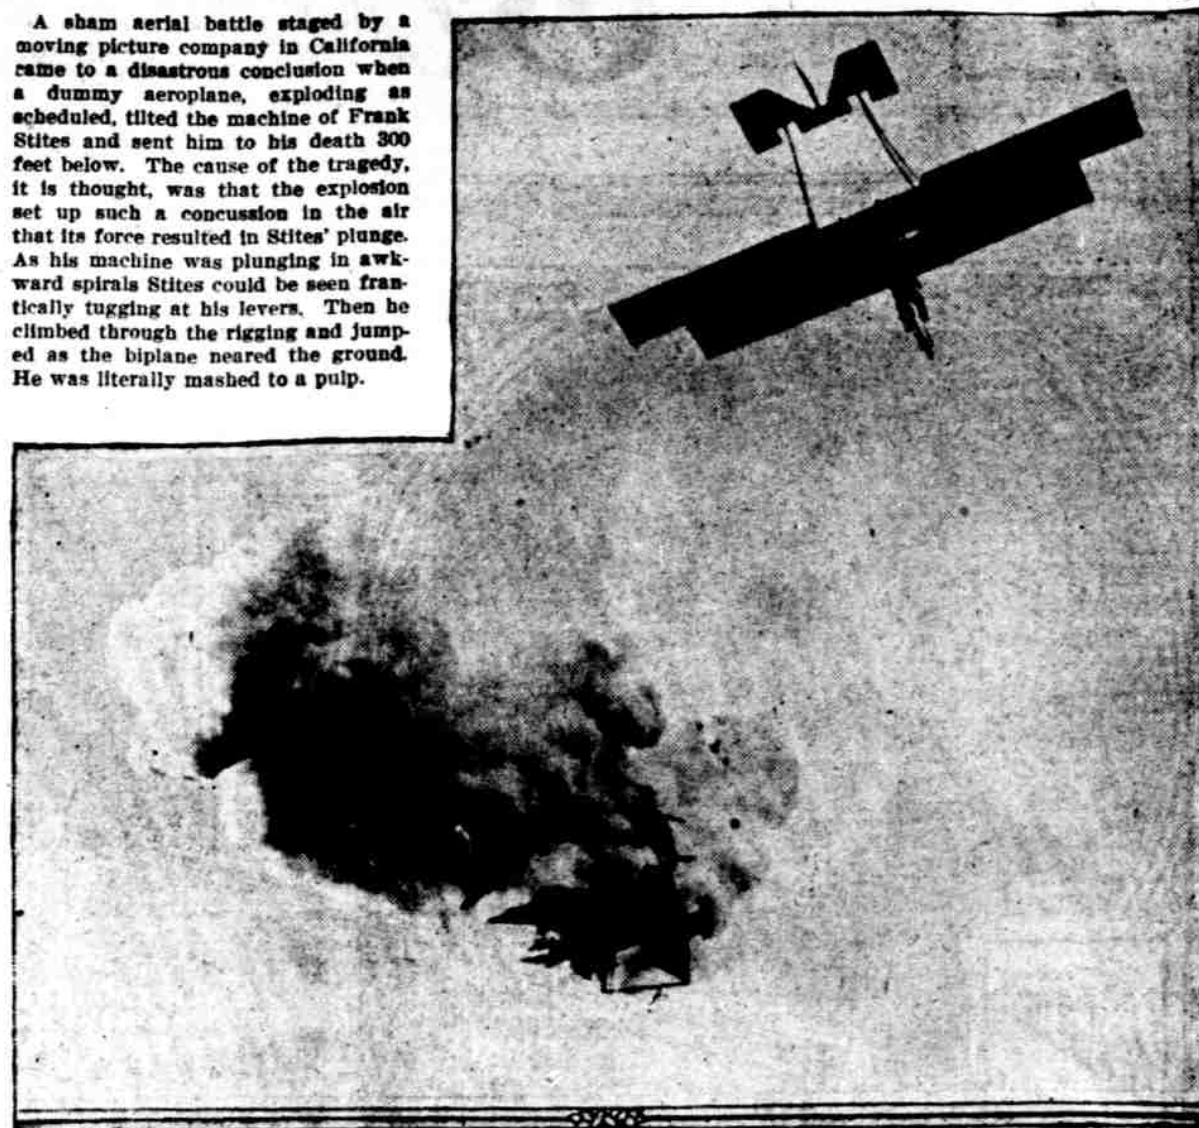

WILSON EDITING "BLOCKADE" PROTEST.

Photo by American Press Association.
President Wilson reading over United States' note to England protesting against latter's attempt to stop all shipping from reaching or leaving Germany. Secretary Tamm is standing.

AVIATOR DIES IN SHAM AERIAL FIGHT.

A sham aerial battle staged by a moving picture company in California came to a disastrous conclusion when a dummy aeroplane, exploding as scheduled, tilted the machine of Frank Stites and sent him to his death 300 feet below. The cause of the tragedy, it is thought, was that the explosion set up such a concussion in the air that its force resulted in Stites' plunge. As his machine was plunging in awkward spirals Stites could be seen frantically tugging at his levers. Then he climbed through the rigging and jumped as the biplane neared the ground. He was literally mashed to a pulp.

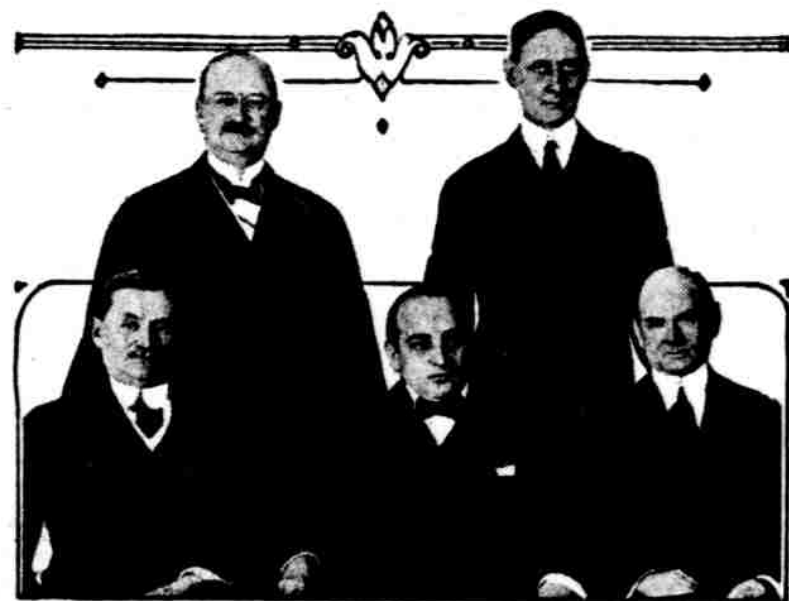

PICTURESQUE GRECIAN SOLDIERS.

Greek fighters in national costume and their king, Constantine.

NEW FEDERAL TRADE COMMISSION.

Top row, left to right, William H. Parry and George Rublee; bottom row, left to right, Edward N. Hurley, Chairman Joseph E. Davies and William J. Harris.

MINE LAYING AND EXPLOSION.
